IDENTIFYING ESSENTIAL CRITICAL INFRASTRUCTURE WORKERS

ENERGY

Petroleum workers:

Petroleum drilling, extraction, production, processing, refining, terminal operations, transporting, and retail for use as end-use fuels or feedstocks for chemical manufacturing

Natural and propane gas workers:

Natural gas transmission and distribution pipelines, including compressor stations

Propane gas storage, transmission, and distribution centers

WATER AND WASTEWATER

Workers repairing water and wastewater conveyances and performing required sampling or monitoring

PUBLIC WORKS

Support to ensure the effective removal, storage, and disposal of residential and commercial solid waste and hazardous waste

CRITICAL MANUFACTURING

Workers necessary for the manufacturing of materials and products needed for medical supply chains, and for supply chains associated with transportation, energy, communications, food and agriculture, chemical manufacturing, nuclear facilities, the operation of dams, water and wastewater treatment, emergency services, and the defense industrial base. Additionally, workers needed to maintain the continuity of these manufacturing functions and associated supply chains.
