2022 Ford F-600 4X4 Service Truck

AVAILABLE THROUGH LIFTMOORE AUTHORIZED DISTRIBUTORS 1/16/2023

SPECIFICATIONS

CHASSIS: 2022 Ford F600 XLT 4X4 VIN: 1FDFF6LT4NDA07045

- Regular Chassis 84" CA 4X4
- 22,000 lbs. GVWR
- 6.7L Power Stroke V8 Diesel
- 10 Speed Automatic Transmission
- 4.88 Ratio Limited Slip Axle
- 332 Amp Alternator
- Front tires (2) LT245/70R19.5G BSW Tires
- Rear tires (4) LT245/70R19.5G BSW Tires

HYDRAULIC CRANE LIFTMOORE 8045DX-30 WP

- 45,000 ft.-lbs. moment rating
- 8,000 lbs. maximum capacity
- Power extension 13' to 30'
- Wireless proportional control with on-board WiFi diagnostics
- Winch planetary gear set with 4000lbs. single line capacity
- 115' of 3/8" Galvanized Aircraft Cable
- LED boom tip lights
- Chassis Stability Monitoring System

AIR COMPRESSOR VMAC DTM70-H

- Air Compressor 65 CFM @100psi
 - FRL, Hose reel 1/2" x 50'
- Direct-Transmission Mounted PTO Driven Multi-Power System
- VMAC Eliminator 70 Air Aftercooler

SERVICE BODY LIFTMOORE 45K HEAVY-DUTY CRANE BODY

- Rated for 45,000 ft.-lbs. crane
- 11' (132") Long Crane Body

Compartments

- Raised right front compartment with two bottle holder
- o 12 GA Galvanneal Ends and Bottoms
- o 44" Tall Compartments
- o 22" Deep Compartments
- 6 Drawer Unit
- 6 Adjustable Shelves
- o 2 Fixed Shelves
- o D-Ring handles

Load Area

- o 49" wide load area without wheel boxes
- o 6 D-Ring Tie Downs
- 12 GA Tread plate tops and load area
- Under coating
- Spray liner on all service body tread plate
- Tailshelf bumper with through compartment and tread plate step
- Curbside Hydraulic Out / Hydraulic Down, Streetside Hydraulic Down Outrigger
- Window Guard with exterior LED swivel work lights and cargo lights
- Interior compartment LED strip lights
- LED Bench lights on rear cabinets
- FMVSS recessed light package

2022 Ford F-600 4X4 Service Truck AVAILABLE THROUGH LIFTMOORE AUTHORIZED DISTRIBUTORS

1/16/2023

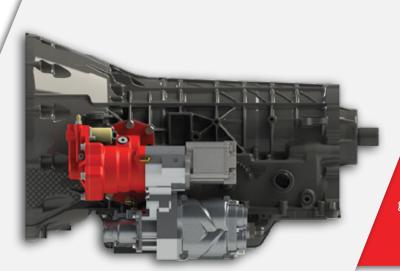

DIRECT-TRANSMISSION MOUNTED PTO DRIVEN MULTI-POWER SYSTEM

THE WORLD'S ONLY DIRECT-TRANSMISSION MOUNTED PTO DRIVEN AIR COMPRESSOR WITH HYDRAULICS!

"So far it's been awesome. The DTM70-H is so much quieter than my old reciprocating system. I just turn it on and it keeps up with no lag time, supplying all the air I need instantly. It's so lightweight, which is big on my F550, so I can carry all my tools and equipment without going over weight."

- Phil Fanelli, Owner, Heavy Equipment Repair, Hilmar, CA

DTM70-H

VARIABLE AIR, STEADY HYDRAULICS, ONE PTO

Use variable air power and steady hydraulic power at the same time, when mounted on 2020+ MY Ford diesel trucks with a single PTO port. The DTM70-H uses a priority valve to divert excess hydraulic flow, which allows you to get up to 65 CFM* of compressed air on demand—while simultaneously providing the consistent hydraulic power you need.

DECREASE TRUCK GVW BY UP TO 600 LB

The DTM70-H frees up truck GVW by as much as 600 lb, with no air receiver tank to mount on the truck deck and 50% smaller hydraulic tank sizes required compared to other hydraulic systems. The total system weight is only 180 lb, allowing you to add more tools and equipment to your truck, carry more materials, take advantage of better fuel economy, or even downsize your truck classification.

30% FASTER INSTALLATION

The DTM70-H is application-engineered for 2017+ Ford F250 to F550 Super Duty work trucks with 6.7L Power Stroke diesel engine, and 6-speed or 10-speed TorqShift™ Automatic Transmission (4x4 or 4x2). No modifications are required to the Ford transfer case. No drive shafts are required to cause alignment issues. Reduced hydraulic plumbing, fittings and hoses compared to other deck-mounted hydraulic air compressors. The system integrates with standard crane controls.

*Actual maximum CFM and GPM output varies based on truck model year, engine RPM, hydraulic pump size, and operating mode.

DESIGNED FOR:

MECHANICAL REGULATOR Easy access for setup/adjustment

Diverts excess hydraulic flow back to hydraulic reservoir tank when operating in Variable Mode

PRIORITY VALVE (2020+ MY trucks only)

HYDRAULIC PUMP

Various pump options available; 2.5 GPM - 14.9 GPM

CONTROL BOX

LCD for on/off controls; observing system status, displays error messages and stores

error codes

VMAC AIR COMPRESSOR COOLER. Oil-injected rotary screw; Up to 70 CFM* @ 100 psi; 100% duty cycle; up to 175 psi

Liquid-to-liquid cooler integrates into truck's cooling system and mounts under the truck's radiator

Separates compressor oil from compressed

air and mounts safely to the truck's frame rail

AIR/OIL SEPARATOR TANK

CHELSEA® 249 SERIES PTO (2017-2019 Ford) or CHELSEA® 210 Series PTO (2020+ Ford) **HFATFR** Includes 250 W modified Sine Wave Inverter and wiring harness

SPECIFICATIONS

2017-2019 MODEL YEARS

2020+ MODEL YEARS

Air Compressor Output

Up to 70 CFM* @ 100 psi (175 psi max)

Up to 65 CFM* @ 100 psi (175 psi max)

Air Compressor Type

PTO driven, direct transmission mounted, 100% duty cycle, VMAC oil-injected rotary screw

Weight (wet)

Approximately 180 lb (81.6 kg)

Control Box

- On/Off function of PTO and compressor
- Operating mode switch on PTO indicator panel

Service notifications System temperature Displays error messages

- LCD display

- Compatible with start/stop crane modules
- and stores codes

- Safety System
- Automatic compressor heater function
- Automatic rapid blow-down valve on tank
- Truck drive disable circuit on throttle control
- Compressor over-temp sensor
- > 200 psi air pressure relief valve
- Truck park brake safety shut-off switch on control box
- Priority valve diverts excess hydraulic flow to resevoir tank (2020+ MY trucks only)

Applications

2017+ Ford F250 to F550 Super Duty 6.7L Power Stroke diesel 4x2 & 4x4 ➤ TorqShift™ Automatic 6-Speed (6R140) Transmission

➤ TorqShift[™] Automatic 10-Speed (10R140) Transmission

PTO (included)

Throttle Control

CHELSEA® PTO; electrically actuated, PTO indicator lamp ➤ CHELSEA® 249 Series

➤ CHELSEA® 210 Series

Hydraulic Pump Options

3.5 GPM - 14.9 GPM*

2.5 GPM - 8.0 GPM*

- > 2 throttle control set-points available
 - > Adjustable up to 2,700 RPM
- Two Operating Modes: variable and fixed; includes toggle switch to switch modes
- Fixed mode: Engine RPM stays constant at engine RPM set-point (factory pre-set 1,250, +/- 250 RPM)
- Variable mode: Engine RPM increases and decreases automatically based on air demand (up to max RPM for the pump)

Warranty

- Two years on all major components; VMAC air-ends are covered by VMAC's Lifetime Limited Warranty
- Chelsea PTO covered by Parker Chelsea Two Year Warranty; Chelsea Pumps covered by Parker Chelsea 18-month Warranty

*Actual maximum CFM and GPM output varies based on truck model year, engine RPM, hydraulic pump size, and operating mode. See table below for details.
